

Hanging Weight or Processed Weight

When farm-to-table businesses sell meat, they may charge by the hanging weight, which is the weight of the carcass before trimming excess fat and bones. We sell it by the processed weight, which is the weight you take home after the excess fat and bones are removed. Our price also includes cut and wrap processing fees including kill fees.

Hanging Price/Pound		Processed Price/Pound
\$4.75	=	\$7.75
